- 9.3. Unless otherwise approved by the AFC, any request by the Participating Team to change the Venue and/or kick-off time of a Match after the publication of the Match Schedule by the AFC shall require the written agreement of both the Host Organisation and the other Participating Team, as well as AFC's written approval. For the avoidance of doubt, this Article 9.3 shall only apply to Matches played in a single-leg or home and away format and not apply to Matches played in a centralised format.
- 9.4. The AFC General Secretariat reserves the right, at its sole discretion, to reject the nomination of any Stadium and require a Host Organisation to nominate an alternative Stadium.
- 9.5. If at any time during the Competition the AFC General Secretariat deems that a Stadium is not fit to host a Match, it shall consult with the relevant Host Organisation and the relevant Host Organisation shall propose an alternative Stadium. 9.6.3. If requested by the AFC, all supporting documents related to Match operations, including safety and security plans by the Member Association on whose territory the Match is to be played and their respective public authorities.

Failure to submit the above documents by the stipulated deadlines may result in the rejection of the nominated Venue. Should the Host Organisation not propose an acceptable Neutral Venue by the deadline set by the AFC General Secretariat, the AFC General Secretariat may, at its sole discretion, select the Venue to stage the relevant Match(es) in accordance with the principles set out in Article 9.5.

9.7. With regard to any Match played at an alternative Stadium in accordance with Article 9.5 or a Neutral Venue in accordance with Article 9.6, the initially designated Host Organisation of the Match shall be responsible for:

9.9.4. even if approval is provided by the AFC General Secretariat, such use shall be subject to all relevant national and local laws. If requested, all necessary permits, licenses and approvals from the relevant authorities shall be provided to the AFC.

9.10. The use of any pyrotechnics/incendiary devices/fireworks is prohibited within the Stadiums unless approved in writing by the AFC General Secretariat.

10.1. Each Host Organisation shall ensure that the Field of Play complies with the requirements set out in the Laws of the Game, the relevant Competition regulations, the relevant AFC Stadium Regulations and all other relevant AFC guidelines, directives and circulars.

10.2. Each Host Organisation must make every reasonable effort to ensure the Field of Play is in the best possible condition to play. The AFC may carry out inspections at any time before and during a Match or Competition to check whether the Field of Play in a Stadium is in a suitable condition to host Matches of the Competition.

10.2.1. If, in the opinion of the AFC, the pitch condition is not fit to host the Match(es) at the Stadium concerned, the AFC shall make a decision based on Articles 9.3 to 9.6, which must be complied with by the Host Organisation concerned.

10.3. The AFC General Coordinator and/or AFC Match Commissioner will inspect each Stadium prior to the Match and ensure that all arrangements are in accordance with the Laws of the Game. If the conditions of the Field of Play including the dimensions of the goal and Field of Play are not in accordance with the Laws of the Game, the AFC Match Commissioner shall issue instructions for the Host Organisation to ensure rectification.

For football Competitions, the AFC General Coordinator and/or AFC Match Commissioner may allow Participating Teams to conduct familiarisation sessions to inspect the Field of Play, wearing training shoes only. For the avoidance of doubt, such familiarisation sessions shall not replace the official training (to be conducted at an Official Training Site) as an official media activity and Participating Teams shall comply with the requirements set out in Article 11.4.
- 11.3. The AFC shall determine the official training schedule for the Participating Teams at its discretion. Participating Teams shall strictly follow the official training schedule determined by the AFC. 13. Full Stadium Closure

- 13.1. Unless otherwise ordered by a competent AFC judicial body in accordance with the AFC Disciplinary and Ethics Code, no spectators are allowed to attend a Match which is subject to a full Stadium closure, with the exception of the following:

APPENDIX 1: FAIR PLAY

1. Fair Play Criteria for Ranking in a Group

When fair play criteria are used to determine the teams' ranking in a group or in a Competition, the score is calculated by adding the points according to the number of yellow and red cards received by each team in the Matches concerned as below:

- i. per yellow card: one (1) point;
- ii. per indirect red card (as a consequence of two yellow cards): three (3) points;
- iii. per direct red card: three (3) points; and
- iv. per yellow card followed by a red card (direct): four (4) points.
- v. For the avoidance of doubt, only one of the above points shall be applied to a Participating Player in each Match concerned.

The Participating Team receiving the lowest score shall be ranked highest. The remaining Participating Teams shall be ranked in descending order.

2. Fair Play Award in a Competition

The Fair Play Award of a Competition shall be awarded to the Participating Team who has performed with the greatest merit throughout the Competition by virtue of fair play. For each Match in a Competition, the fair play performance report shall be produced by the AFC Match Commissioner based on the assessment of the Participating Teams of the Match in question.

a) Fair Play Score

Each Participating Team is assessed based on six (6) criteria. They will receive points under each criteria on a Match-by-Match basis.

- i. The score of each Participating Team for each Match is calculated as below:

Total points of the six (6) criteria/total points available (35 or 40, cf. criterion 6) x 10

i.e. $(9 + 10 + 5 + 5 + 5 + 5)/40 \times 10 = 9.75$

- ii. The final fair play score of a Participating Team for a Competition is calculated as below:

Total points of all Matches played/number of Matches played

i.e. $(9 + 9.75 + 8 + 8.57 + 9.43)/5 = 8.95$

iii. the Participating Team with the highest fair play score calculated based on the above in a Final Competition shall be awarded the Fair Play Award.

iv. Participating Teams that are eliminated after the group stage in a Final Competition shall not be considered for the Fair Play Award regardless of their scores.

b) Fair Play Performance Report

i. Criterion 1: Red and Yellow Card

Maximum 10 points

- First yellow card: minus 1 point
- Second yellow/indirect red card: minus 3 points
- Direct red card: minus 4 points
- Yellow card & direct red card: minus 5 points

ii. Criterion 2: Positive Play

Maximum 10 points

Positive play is assessed by the AFC Technical Study Group members assigned to the respective Competition, taking into consideration the following:

Positive aspects

- Favouring attacking over defensive tactics;
- Accelerating the pace of the game;
- Persistently attempting to score, even if the desired outcome (e.g., qualification) is already secured.

Negative aspects

- Tactics that involve rough play;
- Simulation or play-acting;
- Time-wasting etc.

Generally, positive play correlates with the number of scoring opportunities created and the goals scored.

iii. Criterion 3: Respect towards the Opponent

Maximum 5 points

The assessment is focused on Participating Players' respect for the spirit and principles of fair play, without attempting to engage in any unsportsmanlike behaviour. It is to acknowledge actions that demonstrate respect, sportsmanship and consideration for the opponent, such as:

- Following match protocols (e.g. hand shaking before and after the Match)
- Helping injured opponents
- Avoiding aggressive play
- Etc.

iv. Criterion 4: Respect towards the Referee

Maximum 5 points

The assessment is focused on Participating Players' respect for the Laws of the Game, complying with the Competition regulations and respecting the referees and their decisions. Key considerations include:

- Acceptance of referees' decisions
- Communicating with referees in a respectful manner
- Avoiding dissent
- Etc.

v. Criterion 5: Behaviour of the Officials

Maximum 5 points

The assessment is focused on Participating Officials' self-conduct as well as their management of Participating Players and the entire team. The key considerations include:

- Compliance with the obligations listed in the Competition regulations according to their designations in the team
- Acting in a professional and respectful manner towards all stakeholders
- Emotional control and role modelling in front of players
- Etc.

vi. Criterion 6: Behaviour of the Crowd

Maximum 5 points

This criterion is only applicable if a considerable number of supporters are present in a Match. If the number of supporters is negligible, "0" points shall be entered under this criterion and the total points available becomes 35.

Key considerations are:

- Respecting Match protocols, both Participating Teams and the referees
- Creating a cheerful atmosphere
- Acknowledging the good performance of both Participating Teams
- Avoiding undermining, insulting or frightening language and behaviour
- Etc.

APPENDIX 2: BEST-RANKED TEAMS FROM DIFFERENT GROUPS

While determining the best-ranked Participating Teams among different groups, the following principles shall be applied:

- 1.1. Should all groups consist of the same number of Participating Teams, the best-ranked Participating Team from among different groups shall be determined in descending order as follows:
 - 1.1.1. higher number of points obtained in all group Matches;
 - 1.1.2. superior goal difference from all group Matches;
 - 1.1.3. higher number of goals scored from all group Matches;
 - 1.1.4. the lower score calculated according to the number of yellow and red cards received in the group Matches in accordance with Appendix 1; or
 - 1.1.5. drawing of lots.

Case 1: Should the best second-placed Participating Team be required to be identified among the following groups:

Group A								
Team	P	W	D	L	GF	GA	GD	Pts
Team A	3	2	1	0	3	0	3	7
Team B	3	2	0	1	6	3	3	6
Team C	3	0	2	1	0	3	-3	2
Team D	3	0	1	2	2	5	-3	1

Group B								
Team	P	W	D	L	GF	GA	GD	Pts
Team E	3	3	0	0	4	0	4	9
Team F	3	2	0	1	5	3	2	6
Team G	3	1	0	2	4	4	0	3
Team H	3	0	0	3	1	7	-6	0

(i) Team B and Team F are the second-placed Participating Teams from each group.

Both teams have six (6) points, therefore, criteria 1.1.1 does not determine the best second-placed Participating Team. Team B has a goal difference of +3 whereas Team F has a goal difference of +2. Applying criteria 1.1.2, Team B is ranked as the best second-placed Participating Team.

1.2. Should the groups consist of different numbers of Participating Teams, the Participating Teams in each group will have played a different number of Matches in total. In order to ensure equality, all Participating Teams shall be compared across the same number of Matches, the number of which shall be decided by the AFC. In principle, the results between the relevant Participating Teams and the bottom-placed Participating Team in the relevant group shall be considered null and void. In such cases, the best-ranked Participating Team from among different groups shall be determined in descending order as follows:

- 1.2.1. higher number of points obtained in Matches identified by the AFC;
- 1.2.2. superior goal difference from the Matches identified by the AFC;
- 1.2.3. higher number of goals scored from the Matches identified by the AFC;
- 1.2.4. the lower score calculated according to the number of yellow and red cards received in the group Matches in Matches identified by the AFC in accordance with Appendix 1; or
- 1.2.5. drawing of lots.

Case 2: Should the best second-placed Participating Team be required to be identified among the following groups:

Group A								
Team	P	W	D	L	GF	GA	GD	Pts
Team A	3	2	1	0	3	0	3	7
Team B	3	2	0	1	6	3	3	6
Team C	3	0	2	1	0	3	-3	2
Team D	3	0	1	2	2	5	-3	1

Group B								
Team	P	W	D	L	GF	GA	GD	Pts
Team E	4	3	1	0	14	1	13	10
Team F	4	3	0	1	5	2	3	9
Team G	4	1	2	1	5	5	0	5

Team H	4	0	2	2	2	9	-7	2
Team I	4	0	1	3	2	11	-9	1

- (i) *Team B and Team F are the second-placed Participating Teams from each group.*
- (ii) *Groups A and B have played a different number of Matches. In order to identify the best second-placed Participating Team, the number of Matches shall be equalised.*
- (iii) *The number of Matches to be identified shall be equal to that played in Group A (i.e. the group with the lower number of Matches per Participating Team). Accordingly, the number of Matches played in Group B shall be reduced to three (3) Matches per Participating Team. In principle, the Match between Team F and Team I, which is the bottom-placed Participating Team in the group, will be considered null and void.*
- (iv) *Assuming Team F won the Match against Team I 3-0, we will have a new calculation for Team F:*

Team	P	W	D	L	GF	GA	GD	Pts
Team F	3	2	0	1	2	2	0	6

- (v) *After applying criteria 1.2.1, both Team B and Team F are equal, having accrued six (6) points. Team B has a goal difference of +3 and Team F has a goal difference of 0, and after applying criteria 1.2.2, Team B is identified as the best second-placed Participating Team.*

Note: In operating the procedure set out in 1.2, the points or rankings of the other Participating Teams in the same group shall not be affected. Any new calculation is solely for the purpose of determining the best-placed Participating Team among the groups.

APPENDIX 3: OVERALL COMPETITION RANKING

After each National Team Competition, AFC will produce an overall Competition ranking based on the following criteria:

1.1. Ranking points calculation

The ranking points for a Participating Team shall be calculated by adding all points obtained from all the Matches they played in the Competition concerned.

The ranking points of each Match are awarded to the Participating Team as follows:

The Match is concluded after normal playing time (90 minutes)		The Match is concluded after Extra Time (120 minutes)		The Match is concluded after Penalties	
Win	3 points	Win	3 points	Win	1 point
Draw	1 point	Defeat	0 point	Defeat	1 point
Defeat	0 point				

1.2. Determination of ranking for Participating Teams advancing to the knockout stage of a Final Competition

Team's ranking	Comments
1	The Champion of the Competition shall be ranked one (1)
2	The runner-up of the Competition shall be ranked two (2)

3 – 4	If there is a 3rd/4th place playoff, the winner shall be ranked three (3) and the loser shall be ranked four (4) If there is no 3rd/4th place playoff, only the losing teams of the semi-finals are entitled to be considered for ranking three (3) and four (4). In such cases, the Participating Teams ranked three (3) and four (4) shall be determined in descending order as follows: (i) ranking points obtained as per 1.1 of this Appendix 3; (ii) superior goal difference in the semi- finals; (iii) higher number of goals scored in the semi-finals; (iv) superior goal difference in the quarter-finals (if applicable); (v) higher number of goals scored in the quarter-finals (if applicable); (vi) superior goal difference in the round of 16 (if applicable); (vii) higher number of goals scored in the round of 16 (if applicable); or (viii) procedure as per Appendix 2 (as applicable).
5 to 8	If there are quarter finals, only the losing teams of the quarter finals are entitled to be considered for ranking positions five (5) to eight (8). In such cases, the Participating Teams ranked five (5) to eight (8) shall be determined in descending order as follows: (i) ranking points obtained as per 1.1 of this Appendix 3; (ii) superior goal difference in the quarter -finals; (iii) higher number of goals scored in the quarter-finals; (iv) superior goal difference in the round of 16 (if applicable); (v) higher number of goals scored in the round of 16 (f applicable); or (vi) procedure as per Appendix 2 (as applicable).

9 to 16	If there is a round of 16, only the losing teams of the round of 16 Matches are entitled to be considered for ranking positions nine (9) to sixteen (16). In such cases, the Participating Teams ranked nine (9) to sixteen (16) shall be determined in descending order as follows: (i) Ranking points obtained as per 1.1 of this Appendix 3; (ii) superior goal difference in the round of 16; (iii) higher number of goals scored in the round of 16; or (iv) procedure as per Appendix 2 (as applicable).
---------	--

- 1.3. Determination of ranking positions for Participating Teams that are eliminated at the end of the Preliminary Competition (Qualifiers) or group stage of the Final Competition shall be in accordance with 1.1 or 1.2 of Appendix 2 (as applicable).

Note: as a general principle, a Participating Team that finished lower in one group cannot be ranked higher than a Participating Team that finished higher in that group or any other group. For example, a Participating Team that finished third (3rd) in one group can only be compared to other Participating Teams that finished third (3rd) in other groups.

Participating Teams that do not qualify for the knockout stage cannot be ranked higher than Participating Teams that have qualified. Similarly, Participating Teams that do not qualify for the group stage of the Final Competition cannot be ranked higher than Participating Teams that have qualified.

If Playoff Matches are played to determine qualification slots for international competitions, then such Playoff Matches shall not be considered for the overall Competition ranking

Grass Cutting Pattern

To enable the activity of assistant referees, the grass cutting pattern shall be as below (in millimetres).

Grass Height and Watering Procedure

Line Marking / Paints

Line marking can be done by spray markers or manual brush. Please make sure the proper procedures are followed and caution is taken before marking the lines:

- Check for leaks before starting (do not let paint leaks or spills onto the pitch).
- Set out the lines with string; the string must be left in place until the line is dry, otherwise it will transfer paint.
- Lines must be painted at a slow walking speed, consistently and layer by layer; it will take at least 2-3 applications to ensure the lines are correct.
- The lines must be allowed to dry for at least three (3) hours before training, warm-ups or other maintenance is carried out.
- A bucket of water and a soft brush/sponge should be used to remove any transfer of paint when marking out.
- The paint colour recommended is matt bright white.
- The width of the lines must be the same as the width of the goalposts (e.g. 12cm).
- The penalty spot must be a 20cm diameter solid spot. The centre circle spot should be a 24cm diameter solid spot.

APPENDIX 6: FUTSAL PITCH MARKING GUIDELINES

Pitch Surface and Dimensions

- The pitch size does not need to be 40m x 20m but must be within the size allowed by the Laws of the Game.
- The pitch surface should be flat, smooth and non-abrasive preferably made of wood or artificial material.
- All lines must be 8cm wide.

Pitch Markings

- The pitch is rectangular and marked with lines. The lines act as boundaries and therefore have to be clearly distinguishable from the colour of the pitch.
- The two longer lines are what we call touch lines, and the two shorter lines are called goal lines. The pitch is divided into two halves by a halfway line, which joins the midpoints of the two touch lines.
- The centre mark, with a radius of 6cm, is positioned in the middle of the halfway line. A circle with a radius of 3m is marked around it.
- A mark must be drawn outside the pitch, 5m from the corner arc and at right angles to the goal line and separated from the end line by a gap of 5cm. This is to make sure that defending players retreat this distance when a corner kick is being taken. This mark is 8cm wide and 40cm long.

PENALTY AREA

CENTRE CIRCLE

The Penalty Area

- Two imaginary lines of 6m in length are drawn from the outside of each goalpost and at right angles to the goal line. At the end of these lines a quarter circle is drawn in the direction of the nearest touch line, each with a radius of 6m from the outside of the goalpost. The upper part of each quarter-circle is joined by a line 3.16m in length running parallel to the goal line between the goalposts. The area bounded by these lines and the goal line is the penalty area.
- Within each penalty area, a penalty mark is made 6m from the midpoint between the goalposts and equidistant to them. **This is a circular mark with a radius of 6cm.**
- An additional mark (line) must be made in the penalty area, 5m from the 10m mark, to ensure that the defending goalkeepers observe this distance when a direct free kick beginning with the sixth accumulated foul is being taken. This mark is 8cm wide and 40cm long.

The 10m Mark

- A second mark is made 10m from the midpoint between the goalposts and equidistant to them. **This is a circular mark with a radius of 6cm.**
- Two additional marks, respectively at a distance of 5m to the left and the right of the 10m mark, must be made on the pitch to indicate the minimum distance that players must observe when a kick is being taken from the 10m mark. These are circular marks with a radius of 4cm each.

SECOND PENALTY MARK

The Corner Arc

CORNER ARC

CORNER KICK MARK

- A quarter-circle with a radius of 25cm from each corner is drawn inside the pitch. The line (the corner arc) has a width of 8cm.

Goals

- A goal must be placed on the centre of each goal line.
- It consists of two upright posts equidistant from the corners and joined at the top by a horizontal crossbar. The goalposts and crossbar must be made of an adequate material. They must be square (with rounded edges to guarantee the safety of players) or round in shape and must not be dangerous to players.
- Goal height = 2m and width = 3m

- The distance (inside measurement) between the posts is 3m and the distance from the lower edge of the crossbar to the ground is 2m.
- Both goalposts and the crossbar have the same width and depth (8cm).
- They must be properly supported and must not interfere with the goalkeeper.
- The goalposts and crossbars must be a different colour to the pitch, and the goals must **not be fixed to the ground** and have a stabilising system that prevents them from overturning.

The Substitution Zone **and Technical Area**

- The technical area should be clearly marked and should only extend 1m on either side of the designated sitting area and forwards up to a distance of 75cm from the touchline.
- The substitution zones are the areas on the touch line in front of the team benches. They are situated in front of the technical areas, **5m from the halfway line** and are 5m in length. They are marked at each end with a line 80cm in length – 40cm of which is drawn on the pitch and 40cm off the pitch, and 8cm wide.
- The area in front of the timekeeper's table 5m to either side of the halfway line is kept clear.

- A team's substitution zone is situated in the half of the pitch defended by said team and changes in the second half of the Match and periods of Extra Time, if any.

Warm-up Areas

- The warm-up area, **located in the designated zone behind the technical area, is recommended** to be 2m wide x 8m long, **aligned with** the length of the team bench.
- **If such a space is not available, the substitutes may warm up near the touchline as long as they do not obstruct the movement of the players and referees.**

- The surface of the warm-up area shall be similar to the playing surface which is preferably wood or artificial material.

Stretcher Bearers' Position

- The Host Organisation shall prepare at least two (2) teams of four (4) stretcher bearers for the Match.
- Stretcher bearers must be above 18 years old, in good physical condition and trained in carrying and transferring injured players.
- Both teams of stretcher bearers shall be located 1m away from both technical areas (as shown below).
- They shall be on the same line as the team benches and timekeeper's table.

Title and A-Boards

- A-Boards shall be placed at least 1m from the touchlines—except in the technical areas and substitution zones where upright advertising is prohibited—at the same distance from the goal line as the depth of the goal net, and 1m from the goal net.
- The A-boards shall have good base support and shall not pose any danger (e.g., with sharp edges).
- The Competition title board is normally placed at the centre.

 - 22.4.5. the Participating Official must make contact with the AFC Marketing Officer and AFC Media Officer before the Match to locate a suitable position; and
 - 22.4.6. filming is permitted for technical analysis purposes only as opposed to any general documentation of the stay in the host country and the Competition.
- 22.5. Under no circumstances shall recordings or images taken in the Stadium or other Controlled Access Area be publicly distributed or otherwise used for any type of commercial or non-commercial exploitation, either before, during or after the Competition. Any abuse of video footage constitutes a serious violation of the Media Rights and will be sanctioned by the AFC.

SCHEDULE A – Camera Positioning Summary

- **Main cameras:** The main cameras need to be positioned directly on the halfway line at a suitable height within the main stand. The cameras need to have a clear, unobstructed view of the Field of Play at all times.
- **Pitch-level centre camera:** To be located in line with the halfway line in front of the fourth official if a suitable camera seat is used or fixed on the halfway line next to the fourth official if a camera on a tripod is used.
- **Offside cameras:** Located in the main stand facing the sixteen (16) metre line at each end of the Pitch on the same side of the Stadium as the main cameras. These cameras can be located higher in the main stand than the main cameras.
- **Pitch level cameras behind the goal line:** Cameras will be located behind the advertising boards that run parallel to the goal lines at each end of the Pitch. The exact location and number of cameras in this area is decided on a Match-by-Match basis, with the locations being confirmed on MD-1.
- **Pitch level cameras along the by line:** Cameras can be located in a fixed location at Pitch level on the same side as the main cameras as long as they do not obstruct the view of the Field of Play for the fourth official and/or the team benches. The cameras should also be far back enough from the Pitch to ensure that there is no danger to Participating Players.
- **Steadicams/handheld cameras:** Steadicams and handheld cameras can be used on the same side of the Pitch as the main cameras, with one operating on each half of the Pitch. This will be operated by one (1) cameraman, and if cabled, one (1) cable assistant. The cameras must not encroach in front of the team benches, should not interfere with the assistant referee running the line and should not block the line of sight from the fourth official to the Field of Play.
- **Pitch level Steadicam/handheld cameras outside of play:** Up to two (2) Steadicams or handheld cameras are allowed on the Field of Play to cover the players walking on, team line-ups, anthems, VIP handshakes and the coin toss, plus post-Match reactions and celebrations.
- **Tunnel camera:** A single handheld camera is allowed into the tunnel prior to the teams walking out before the start of the Match, half-time and full-time. The camera must not impede the Participating Players, Participating Officials or Match Officials.
- **Stand camera behind goals:** A camera can be installed in the stand directly behind each goal, with the camera located directly in line with the penalty marks at each end. The penalty mark closest to the camera should be visible above the crossbar of the goal.
- **Beauty shot:** Where access is suitable a fixed camera can be located at a high point in the Stadium to allow a panoramic shot of the complete venue.
- **Reverse pitch level cameras:** A camera or cameras can be located behind the advertising boards on the opposite side of the Pitch to the main cameras to allow for a different perspective and coverage of the team benches.
- **Reverse stand level camera:** Cameras can be placed within the stand opposite to the main stand.

APPENDIX 20: AFC MEDICAL GUIDELINES AND POLICIES

PART A: AFC Guidelines – Football Participation in Extreme Conditions: Heat, Cold and Haze

Football, the most popular sport in the world, is played throughout the year with exposure to various extreme weather conditions. Limited scientific data and ethical issues that hamper research have not determined threshold levels or specific guidelines for safe participation in sports in extreme environments. Some studies have been conducted in football with the support of F-MARC. Participation in extreme environments may have a detrimental effect on the health of players and impair their performance. However, sport-specific guidelines need to be in place to protect players in each sport. The AFC Medical Committee recommends the following guidelines for participation in extreme environmental conditions.

1. Hot Environment

Ambient temperature and humidity, duration of exposure and intensity of physical activity, physical state of player and other related risk factors, if adequate precautionary measures are not taken, may expose players to heat-related injuries – heatstroke, heat exhaustion and heat cramps. These conditions are rare in football but more importantly are preventable by the introduction of cooling breaks during Matches. No incidence of heatstroke has been reported during FIFA/AFC competitions.

Decision Process

- 1.1. The decision to introduce cooling breaks during a Match shall be based on the Wet Bulb Globe Temperature (WBGT) readings at ninety (90) and sixty (60) minutes prior to the commencement of the Match. If the WBGT readings are 32°C (thirty-two degrees Celsius) and above (28°C and above at youth Competitions), cooling breaks may be introduced after consultation with the AFC General Coordinator and/or AFC Match Commissioner and the referee. This information must be communicated to each Participating Team and/or team doctor as well as the relevant authorities such as Media, Host Organisation, etc. Each break per half (i.e. at 30th and 75th minute) shall comprise three (3) minutes. During this stoppage time, players may rehydrate and soak themselves with cold wet towels provided by the Host Organisation.

Preventive Measures

- 1.2. Participating Teams shall be responsible for:
 - 1.3.1. monitoring players who have past history of heat-related injuries;
 - 1.3.2. monitoring players with medical conditions (e.g. blood disorders);
 - 1.3.3. monitoring players on medications;
 - 1.3.4. modulating the iron-field activities (advise players to limit running with the ball, more passing during the Match);

1.3.5. setting strategies for hydration (encourage players to keep hydrating themselves prior and during the Match); and

1.3.6. advising good sleep and diet.

Host Organisation Obligation

1.4. The Host Organisation shall be responsible for providing:

1.4.1. two (2) cooler boxes (one for each team) with adequate quantities of ice during each half of the match for cooling breaks (i.e. 30th and 75th min.). Teams may use their own cooling items, if they so require;

1.4.2. face towels soaked in ice-cold water for players of each team (i.e. 11x2=22 and four [4] for referees) for each cooling break;

1.4.3. additional cold bottled water for players and referees for each cooling break; and

1.4.4. emergency medical services as below:

1.4.4.1. heat stroke diagnostic equipment and treatment logistics (rectal temperature thermometer; medications [anti-convulsion]); tub and tepid water spray, etc.

1.4.4.2. a medical team conversant with treatment of heat-related injuries.

2 Cold Environment

Cold should not be a barrier to football participation if all risk factors are adequately evaluated and appropriate preventive actions are taken. Hence, cold-related injuries,

mainly hypothermia (core body temperature 35.0°C [thirty-five degrees Celsius] and below) can be prevented. Mild hypothermia may result in shivering and loss of musculoskeletal coordination. Heat can be lost through conduction, convection, radiation and evaporation. Body heat is lost more rapidly via wet conditions (conduction) and wind chill (convection/evaporation). There is no specific scientific data to demonstrate the threshold temperature to stop football activity. However, wind chill factors, clothing, with or without rain/snow fall together with ground conditions are additional factors taken into consideration to determine whether to continue or discontinue football activity. Officials may use a wind chill chart as a guide. Players will find cold acclimatisation more difficult to achieve and less effective to sustain normal body temperature or preventing cold-related injuries than heat acclimatisation. Most football activities or matches take place around -10°C (minus ten degrees Celsius) or at higher temperatures.

Effective 11/01/01

Decision Process

- 2.1. Sixty (60) minutes before the commencement of the Match, the AFC Medical Officer shall take note of the ambient temperature and wind chill. If temperature readings are -15°C (minus fifteen degrees Celsius) and below, the AFC Medical Officer shall advise the AFC Match Commissioner and the referee of the possibility of postponement of the Match and shall inform the team doctors and the medical team to observe the players carefully. If temperature readings are -25°C (minus twenty-five degrees Celsius) a postponement of the Match should be strongly advised. The decision of the referee shall be final in accordance with the Laws of the Game.

Preventive Measures

- 2.2. Participating Teams shall be responsible for:

- 2.2.1. ensuring the players have appropriate clothing with insulation and/or windshield liner (wearing it in several layers) and protecting officials and players on the bench from cold weather/wind (i.e. warm clothing/windbreakers);
- 2.2.2. monitoring of players susceptible to hypothermia (previous episodes and especially lean players and cold intolerance). Children and adolescents are at a greater risk due to the greater body surface-to-mass ratio and low subcutaneous fat;
- 2.2.3. monitoring of players with medical conditions (e.g. Exercise Induced Asthma [EIA]/asthma, diabetes, hypothyroidism, cold-induced urticaria);
- 2.2.4. encouraging drinking of fluids to prevent dehydration;
- 2.2.5. encouraging players to have a diet rich in carbohydrates (pre-participation increase in carbohydrate reserves is essential);
- 2.2.6. encouraging players to keep moving on the field and checking goalkeeper's movements;
- 2.2.7. being aware of the players on medication;
- 2.2.8. knowing the individual risk factors (age, body composition, medical history, fatigue) and additional risk factors for hypothermia such as injuries, dehydration; and
- 2.2.9. immediately after any football activity, removing wet clothes and encouraging hot showers, sauna, etc.

Host Organisation Obligations

- 2.3. The Host Organisation shall be responsible for providing:
 - 2.3.1. trained team of emergency medical personnel (familiar with treatment of cold-related injuries) to treat hypothermia with passive and active re-warming, frost bite (extremely rare); and
 - 2.3.2. medical supplies and equipment for treatment (e.g. hypothermia, EIA, hypoglycaemia, etc.)

3. Haze – Air Pollution

No scientific studies have been conducted on the safety of elite athletes in extreme air pollution (haze). Limited scientific studies (environmental health) are published and information from health authorities provides some measure of direction. Air pollutants measured include sulphur dioxide, nitrogen dioxide, carbon monoxide and suspended particulate matters of less than 10µm (ten microns), mostly industrial waste, vehicular emissions and open burning (forest fires). With worldwide climatic changes, haze is becoming a common phenomenon especially in Asia and Member Associations are concerned about the safety and health of players. From an organisational point of view, suspension of Matches lead to additional financial commitments, broadcasting rights, travel rescheduling, ticketing, etc. Furthermore, severe adverse health effects have been reported when exposed to haze, such as smarting of eyes, flu, sneezing, dry throat, dry cough, asthma and allergic reactions. The short term or long-term effects of exposure have not been well documented.

Air Pollution Index (API or PSI) — haze particulate matter consists of smoke, dust, moisture and vapour suspended in air that impair visibility and affect health. The most common contributor are open burning from domestic and forest fires, motor vehicles and industrial waste into the atmosphere. The air quality is measured using PSI — Pollution Standard Index or Air Pollution Index (API) and provides information on health hazards. The API or PSI levels defer from country to country and hence there is no common consensus. The following are the guidelines:

Decision Process

- As weather changes from time to time, it is important that Air Pollution Index (API) readings be taken at hundred twenty (120) minutes and sixty (60) minutes before the kick-off of the Match. The AFC Medical Officer shall contact the weather authorities for the API readings. If the API readings are 200 and above, the AFC Medical Officer shall report to the AFC Match Commissioner and the referee with a view to postpone the Match. The decision of the referee shall be final.

Preventive Measures

- Participating Teams shall be responsible for:
 - ensuring that players drink plenty of fluids;
 - monitoring players that have a history of asthma, exercise-induced bronchospasm and players with history of allergies;

- 3.2.3. watching out for players that may not perform optimally during the Match;
- 3.2.4. maintaining good hygiene and staying indoors; and
- 3.2.5. the administration of a flu vaccine.

Host Organisation Obligations

- 3.3. The Host Organisation shall be responsible for providing:
 - 3.3.1. an emergency medical team/trained in such emergencies;
 - 3.3.2. access to a respiratory physician, if possible - an expert in dealing with such emergencies;
 - 3.3.3. additional medical personnel; and
 - 3.3.4. adequate emergency medical supplies and equipment.

PART B: AFC Policy and Protocol on Head Concussion and Pre-Match Emergency Action Plan (PMEAP)

4. Head Concussion

Concussion is defined as a complex pathophysiological process affecting the brain induced by traumatic biomechanical forces. Several common features that incorporate clinical, pathological and biomechanical injury constructs that may be used in defining the nature of a concussive head injury are:

- concussion may be caused by a direct blow to the head, face, neck, or elsewhere on the body with an impulsive force transmitted to the head;
- concussion typically results in the rapid onset of short-lived impairment of neurological function that resolves spontaneously;
- concussion may result in neuropathological changes, but the acute clinical symptoms largely reflect a functional disturbance rather than structural injury;
- concussion results in a graded set of clinical syndromes that may or may not involve loss of consciousness; and
- no abnormality on standard structural neuroimaging studies are seen in concussion.

Protocol and Decision Process during the Match

- 4.1. A Participating Player who experiences a suspected concussion during a Match must undergo an examination by the team doctor in accordance with the protocols established by the AFC Medical Committee and/or documented in the FIFA Football Emergency Medicine Manual. The referee may temporarily suspend play up to three (3) minutes whenever an incident of suspected concussion occurs. The referee may only allow the injured Participating Player to continue playing with the authorisation of the team doctor, who must have evaluated the player and concluded that the player is **not exhibiting signs or symptoms of concussion**. The team doctor will have the final decision based on his/her clinical examination and is forbidden to allow a Participating Player to continue playing if concussion is suspected.
- 4.2. The AFC recommends that Participating Teams follow the **return to play protocol set forth in the Sport Concussion Assessment Tool 6 (SCAT6)** for any player who has suffered concussion. SCAT6 recognises that the time frame for return to play may vary, including based on the player's age and history, and that doctors must use their clinical judgement in making decisions with respect to return to play.

** The visual above is the flow of the management and treatment of head concussion*

Host Organisation Obligations

4.3. The Host Organisation shall be responsible for providing:

- 4.3.1. a Field of Play medical team, which must include emergency medical personnel trained in the management of traumatic head concussion for cases in which they may be called-upon to assist the team medical personnel (team doctor and/or team physiotherapist) on assessment and treatment (if requested);

4.3.2. emergency personnel familiar with the SCAT6 protocol; and

4.3.3. on-pitch medical equipment available for treatment and management of head concussion (spinal board with head rest, immobilisation supplies and medications).

5. Pre-Match Emergency Action Plan (PMEAP)

Sudden Cardiac Arrest and Trauma

One of the major challenges in providing medical care for football is the inconsistency in resources available within host countries/venues. The FIFA PMEAP or “set piece” aims to add a consistent approach that can be adopted by most multidisciplinary teams (MDTs) and defines the minimal clinical resources and associated skills required for each role.

The PMEAP is designed for all stakeholders in football to resuscitate and stabilise a patient and to cultivate the skills required to deliver these procedures. This focus allows the integration of clinicians with emergency competencies (such as doctors, paramedics and nurses) and allied health professionals with other skills (such as physiotherapists, athletic trainers, sports therapists and first aiders) into MDT. This provides a structure by which any medical team supporting the field can deliver a reproducible system using a set-piece process to ensure optimal player care when a medical emergency presents itself.

The PMEAP illustrates a process by which medical teams organise themselves to deliver prioritised care in emergency scenarios and minimises the risks that are inherent when working in the complex and often publicly viewed prehospital environment of competitive football.

The set piece permits optimal team performance by allowing everyone to remain task-focused without distraction. A team leader or 'captain' of the medical team should be pre-designated and is ultimately responsible for coordinating the emergency response. This role can be assumed initially by the first responder (often the team doctor) who would perform the initial on-field assessment and begin management before moving to a more hands-off role to coordinate the response, or hand over these responsibilities to a pre-determined team leader (when they arrive on scene). Regardless of the clinical scenario, the process for the emergency response should not change, so time-critical and life-threatening clinical issues (such as sudden cardiac arrest or thoracic trauma) are not missed due to the prioritisation of more eye-catching issues (such as angulated fractures).

A synchronised, well-practised set-piece allows teams to work efficiently and without getting in each other's way. However, the task-focused element of most team members' roles places increasing importance on communication and the hands-off oversight of the team leader. Communication within the team is key, allowing team members to feedback through the team leader who provides situational awareness and coordinates the set-piece.

PART C: Head Concussion & Sudden Cardiac Arrest (SCA) Prevention & Management: Continuous Education of Medical Personnel

6. The AFC aims to ensure that medical personnel are continually aware of the prevailing best practices in the management of on-field emergency medical cases (such as concussion and sudden cardiac arrest) and are ready to deal with any situations that arise during Matches. To achieve this objective, the following guidelines are mandatory:

- b) The team doctor of a team/Club participating in an AFC Match/Competition (or, where applicable under the relevant regulations, the other responsible medical personnel who will be present on the team bench) must complete and successfully pass the “Concussion” and “Sudden Cardiac Arrest” modules of the FIFA Diploma in Football Medicine prior to any involvement.

The FIFA Diploma in Football Medicine is an online course and is available free of charge at www.fifamedicalnetwork.com.

- b) Every team doctor at a team/Club participating in an AFC Match/Competition must attend an Emergency Medicine Accreditation Course at an eligible institution/organisation at least once every two (2) years.

The certificate of completion evidencing compliance must be submitted to the AFC via the AFC’s Administration System (AFCAS).

PART D: Medical Plan and Human Resource Requirement

7. Medical Plan

7.1. The Local Organising Committee medical and anti-doping operation plan must comprise key areas of the overall Competition operation plan. The strategic plan is governed by the HA/List of Requirements, this Manual, the Competition regulations and other guidelines.

7.2. A medical plan shall ensure the implementation of the following:

- a detailed pre-event risk assessment related to medical matters; and
- adequate preventive measures based on the risk assessment and requirements.

Section 3	Functional Scope	• The functional scope should clearly specify the roles of various stakeholders organising the medical and anti-doping programme should the LOC collaborate with various government and non-governmental health entities. • The LOC must provide its organisational structure and its relation to the related sub-committee of the over-all Competitions structure. Sourcing/hiring of medical personnel and staff deployment plan
Section 4	Hygiene & Sanitation	• Plan on maintenance of hygiene in all areas related to competitions. • Handling of food at the team hotels, AFC Delegation Hotels, VVIP/Guests and other official areas. Guidelines to be in place on infection control and any outbreak of communicable disease in the course of competition.
Section 5	Governmental Requirements • Importation and exportation of medical supplies and medication • Temporary registration to practice medical profession	• Governmental regulations and requirement on the importation of medical supplies and medications and exportation of used and unused medical supplies and medications • There are countries that require any foreign medical practitioner to apply for temporary registration to practice his/her profession at the host country/city. The LOC must secure details and procedures.

Section 6	Referral Hospitals/ Clinics for each Venue	• Early coordination and designation of referral hospitals at all Venues is imperative to guarantee provision of services. • The LOC must consider identifying public and private hospitals. Public hospitals might face facility and service challenges due to their large number of patients. However, public hospitals will only be approved if the LOC has secured a guarantee from the referral hospital that the tournament will be given priority and a fast lane in non-emergency and emergency cases is provided. • The lists of detailed services and facilities must be included in the plan as an appendix.
Section 7	Provisions of Medical Services to the Public/Spectators	• It is the very nature of football to have a large number of supporters located in the confined environment of a stadium. The LOC must provide its concept in the operation of medical services to the public/spectators in consideration of international and local guidelines on mass gatherings and risk management of mass disasters (procedures and protocol related to health and safety). These must be approved by the local authority and must also be part of the plan.
Section 8	Strategic Planning Meeting and Training of Medical Personnel	• The LOC should organise a coordination meeting with various stakeholders who shall be involved in the medical and anti-doping aspects of the organisation. However, it is also imperative that a point person for medical must be part of the agenda of the general organisational meetings. • The LOC should provide a plan on how to managing staff absence as a contingency plan.
Section 9	Communication Technology	• The LOC is to provide information on the communication equipment to be provided to medical personnel. The equipment must comply with the technology requirements stipulated in this Manual.

Section 10	Education	• Participation of LOC medical personnel in the Team Workshop (programme, speakers, LOC key personnel attendance, etc.). • Educational activities initiatives (health and anti-doping awareness campaigns for various stakeholders).

APPENDIX 21: BALL CREW GUIDELINES

1. A standard ball crew pre-Match schedule is shown below, which may be adjusted by the AFC Match Commissioner or AFC General Coordinator if needed:

Countdown	Activity
-05h	Arrival of ball crew at the Stadium
-04h	Rehearsal starts
-01h	Ball crew lines up in tunnel (without balls)
-55'	Ball crew in position (without balls)
-20'	Ball crew returns to holding room
-15'	Ball crew lines up in tunnel (with balls)

2. All ball crew members should have an understanding of the game and have experience at least at the domestic level.
3. **Briefing on Match day:** Upon arrival at the Stadium, the ball crew shall be directed to the relevant holding room to wait for the Official Countdown to begin. The AFC Match Commissioner, with assistance from the ball crew supervisor, shall brief the ball crew about their duties during the rehearsal.
4. **Accessing the pitch:** The ball crew shall line up in two lines in the tunnel before the players' warm-up session (without balls) as well as before the Match and before the second half (with balls). The ball crew members that will be positioned furthest away from the tunnel shall lead the two lines and the ball crew members positioned closest to the tunnel shall go last. The ball crew shall leave the tunnel in an orderly manner and jog towards their assigned positions.
5. **Positioning:** For Matches in which twelve (12) ball crew members are used, there shall be three (3) ball crew members each on both touchlines and three (3) ball crew members each on both goal lines as shown below. If only ten (10) ball crew members are used for a Match, the ball crew members behind each goal can be removed.

6. Unless instructed by the Referee, the ball crew must always remain behind their goal line/touchline and never enter the Field of Play.
7. Ball crew shall stay attentive throughout the Match and follow the action on the pitch. This will assist them in ensuring where to send the balls when the ball on the pitch goes out of play.
8. **Holding the ball:** During the Match, the ball crew should sit on the stools/low chairs provided and hold a ball in their hands. The ball crew shall not play with a ball at any time.
9. **Advertising boards:** The ball crew shall stand behind the advertising boards and behind any photographers or camera operators. They shall never touch or lean over the advertising boards. The ball crew shall not jump over the advertising boards to collect a ball. They shall always run around the boards using one of the gaps in a corner to retrieve a ball. The ball crew shall only walk in front of the advertising boards when action on the pitch is away from the area.
10. **Throwing the ball to a player:** When the ball on the pitch goes out of play, the ball crew member closest to the point where the ball went out of play shall throw their ball in an underarm motion to the player who will restart the game. The ball crew member must ensure that a new ball is definitely needed before sending a ball onto the pitch. They should also wait until the player is at the touchline and gives a signal to receive the new ball before throwing their ball to the player.
11. **Rolling a ball to another ball crew member:** Ball crew shall only roll balls to another ball crew member and the same shall be done quickly and accurately. Ball crew shall get low

to the ground by stepping forward with the opposite foot of the rolling hand. The ball shall then be rolled along the ground without any bounces.

12. **Retrieving a ball:** When play has restarted, the ball crew member who gave their ball to the player shall retrieve the ball that went out of play and then immediately return to their position. Depending on where the ball went out of play comes to a stop, the following shall be done by the ball crew member who gave their ball to the player:
 - a. **Between the touchline and the advertising boards:** the ball crew member must wait until the action moves away from that area before they retrieve the ball.
 - b. **In the stands:** the ball crew member shall try to retrieve it with the help of stewards and security while remaining at pitch level. The ball crew member shall never go into a stand to retrieve a ball but should instead ask the spectators to throw the ball back without taking any risks. If the spectators do not return the ball, the ball crew member shall return to their position and wait for a new ball to be provided by the ball crew supervisor.
13. **Players' warm-up:** The ball crew shall take their positions without the balls for the players' pre-Match warm up as well. Participating Teams shall use their own balls for warm-up but the ball crew shall assist with retrieving any balls that leave the pitch. Between the end of warm up and the start of the Match, the ball crew may return to their holding room for drinks and a toilet break, but they should return to the tunnel at least fifteen (15) minutes before kick-off, or as instructed by the AFC Match Commissioner.
14. **Half-time:** The ball crew shall return to their holding room and all balls must be returned to the ball crew supervisor. The ball crew shall take their positions for the second half using the same process as the first half.
15. **Extra time:** If extra time is played, the ball crew shall remain in position.
16. **Penalty kicks:** Only three (3) ball crew members shall be used beside the goal and behind the advertising boards where the kicks are taken. The remaining ball crew members shall return to the holding room as per the end of match procedure and shall not remain on the pitch to watch the penalty kicks.
17. **End of Match:** At the end of the Match, the ball crew shall return to the holding room and return all balls to the ball crew supervisor. The ball crew shall not give a ball to any players even if requested. The ball crew supervisor shall return all balls to the AFC Match Commissioner.
