

REBUILDING OF THE SHREE SETIDEVI HIGHER SECONDARY SCHOOL AT SINDHUPALCHOK NEPAL BY THE ASIAN FOOTBALL CONFEDERATION

TENDER FOR THE DESIGN & BUILD OF 4 BLOCKS OF CLASS ROOMS AND AN ADMINISTRATION BLOCK, ALL BUILDINGS COMPLETE WITH PLUMBING, SANITARY, ELECTRICAL AND MECHANICAL SERVICES

Background to this Project

The Asian Football Confederation [AFC] is one of the Confederations under FIFA with its headquarters is located in Kuala Lumpur, Malaysia. The AFC is the governing body for football in Asia with 46 member associations of which Nepal is a member.

In collaboration with the All Nepal Football Association (ANFA) and following a visit to the District of Sindhupalchowk, Nepal, one of the most affected areas of the earthquake of 12 May 2015, and while considering the recommendation of the Ministry of Education Nepal, a decision was made in December 2015, to rebuild the earthquake damaged Seti Devi Village School (Shree SetiDevi Higher Secondary School) in the Sindhupalchok district.

The necessary applications were made in December 2015 and approval from the Syaule Village Development Committee of Sindhupalchok and the Department of Education, Ministry of Education Nepal for Sindhupalchok District, were received in January 2016.

Project Description

The works of the project involve the construction of four (4) single level blocks, comprising three (3) classrooms each, internally separated by sliding doors, a single (1) administrative block, and an uncovered open space assembly area. The rebuilding work is to provide the following:

- 12 Classrooms for 30 students each -(Total -360 students)
- Teachers Room for 20 teaching staff tables
- Headmasters Office for the Headmaster and 2 assistants
- Sanitary, Plumbing, Lighting facilities as required.

The 5 new blocks will connect with the existing school block at ground level by covered corridors. The school building will be fully integrated into the existing buildings and facilities. See Appendix A for a proposed site layout plan. Each of the twelve (12) classrooms will have thirty (30) chairs and tables for students, a blackboard and one (1) set of table & chair for the class teacher.

The site topography within the boundary lines is described as being flat. Bidding contractors are to visit the site and satisfy themselves of the levels and consider any obstructions on the ground.

As this region is prone to earthquakes, the new proposed buildings will be at ground level and will be single storey. This project is to be completed by 1st November 2016.

The Tender Bids are to be returned as described in the Tender Invitation or the Request for Quotation (RFQ), whichever applicable .
